

Last week's snow was worrisome, but the trees are still budding so that's a relief!

COVID Protocols:

As you've likely aware, most Covid-19 restrictions have been lifted in BC. Measures such as wearing masks and providing proof of vaccination (POV) are no longer required for gatherings in places like New Horizons. Learning to live with Covid-19 means that we must remain vigilant and continue to follow Public Health guidelines and recommendations.

While Hornby New Horizons has agreed to drop masking and POV requirements for gatherings we also urge members and visitors to abide by those recommendations:

- Stay home if you are feeling ill. Covid symptoms vary widely but any cold or flu-like indicators are cause for consideration.
- Sanitize hands and touch points. We installed sanitation equipment in our facility early in the pandemic. Please use it.
- Maintain a respectful measure of physical distance.
- Mask use is your personal decision.
- Breathe fresh air. We installed an air purifier in New Horizons but when the weather permits open doors and windows.

New Horizons Annual General Meeting:

Please join us for the **44th annual AGM on Thursday May 19th at 11AM**. You can attend in person and stay for snacks and refreshments afterwards or attend virtually via Zoom. It would be helpful to get a read on how many will attend in either format so please RSVP at hornbynewhorizons@gmail.com.
